

***Small Harvester Exception:**

A landowner may be allowed to exceed the 2 MMBF/yr harvest limit if it can be reasonably established that the limits are to be exceeded to raise funds to pay estate taxes or other equally compelling and unexpected obligations such as court-ordered judgments, medical expenses, or expenses incurred on the property as a result of natural disasters.

****Riparian Area** includes riparian and other special management zones identified by the Forest Practices Rules for protection of aquatic resources (i.e. wetlands, ponds, lakes, seeps and springs, etc.)
